1. EXECUTIVE SUMMARY

The International Monetary Fund (IMF)¹ projected global growth to slow to 3.2 percent and 2.9 percent in 2022 and 2023, respectively. These downward projections reflected contraction in growth for both emerging markets and advance economies. For emerging markets, the trend reflected downturns in the Chinese and the Russian economies during the second quarter of 2022. Furthermore, the US consumer spending was weaker than expected thus attributed largely to the slow-down in growth forecast for the advance economies. Overall global growth continues to be affected by the continuous impact of higher than expected global inflation, triggering tighter financial conditions especially in the US and major European economies, the covid 19 outbreaks and lock downs in China; and further negative spill over from the war in Ukraine.

Domestically, growth was projected at 3.6 percent in 2022, up from 2.8 percent in 2021, and to further expand by 5.0 percent in 2023. The main contributing factors to growth include; the re-opening of international borders, implementation of construction projects that were delayed from past periods and improvement in productivity in the primary sector. The medium term growth outlook remained positive.

Inflation increased by 3.6 percent during the June quarter from 2.7 percent in the March quarter. Inflation was predominantly driven by changes in the Government's tax policy, the impact of the lock down, and spill over effects of global supply chain disruptions due to the global pandemic and the Russia/Ukraine conflict.

The Central Government operated an expansionary fiscal policy over the year to June 2022. This was reflected in the reduction in both recurrent revenue and donor inflows for the year to June 2022, relative to the corresponding period of 2021

Money growth continues to be driven by net foreign assets (NFA) and the increase in the Government's net credit vis-a-vis the banking system. Private sector credit growth remained subdued.

The banking industry's financial performance remains satisfactory, despite being heavily challenged by the current pandemic situation. The industry remains well capitalized with the capital adequacy ratio (CAR) well above the minimum threshold of 10.0 percent. Non-performing loans (NPLs) have declined. Contractions in NPL as well as the increase in capital contributed to improvements in the asset quality indicators over the quarter. The domestic banking industry's liquidity position remained high with liquid asset ratio (LAR) extremely well above the minimum regulatory threshold of 5 percent.

Vanuatu's negative current account balance (CAB) contracted further due to reductions in the positive income balances which outweighed improvements in the trade balances. The overall trade balance improved as growth in exports outweighed increases in imports. Consequently, official foreign reserves remained high and reserves were sufficient to cover up to 10 months of total imports.

¹ July 2022 World Economic Outlook (WEO) relative to the April 22 WEO

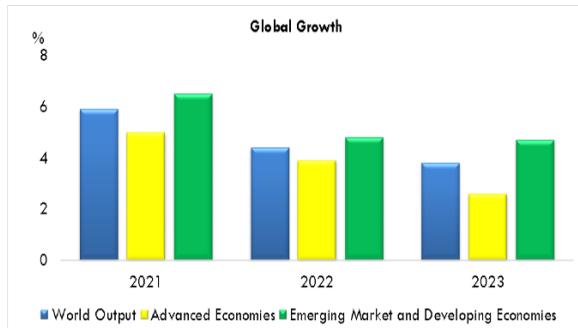

2. THE INTERNATIONAL ECONOMY

The World GDP Growth

In its July 2022 World Economic Outlook (WEO), the International Monetary Fund (IMF) projected global growth to further contract by 0.4 percentage points (lower than projected in April WEO) in 2022 and a 0.7 percentage point contraction for 2023. Growth in advanced economies was revised downwards in 2022 and 2023 by 0.8 and 0.1 percentage points respectively, while the emerging market and developing economies are also expected to further contract by 0.2 and 0.5 percentage points in 2022 and 2023, respectively.

Global economic growth is estimated to have contracted in the second quarter mainly due to economic slumps in China and Russia. Activity in the advanced economies has been affected by the prolonged war in Ukraine besides the spill-over effect of the pandemic and supply chain disruptions on food and energy prices. Inflation has risen relatively higher and for several economies, tighter labor market has reached historically high levels which could lead to the risk of triggering a wage-price spiral.

Figure 1: World GDP Growth
(Percentage Change; Annual Data)

Source: IMF, July WEO 2022

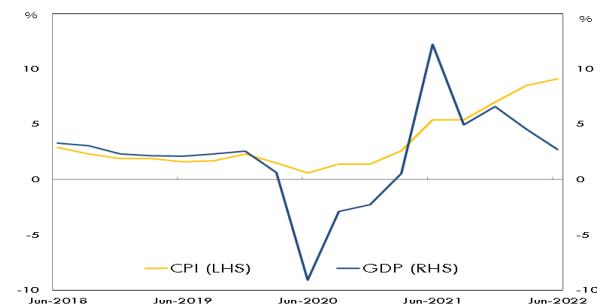

The United States (US)

The United States (US) economy contracted by 0.6 percent over the June quarter, from 1.6 percent in the March quarter of 2022. The reduction reflected decreases in private investment and government spending, which outweighed increases in exports and consumer spending. The US unemployment rate, stood at 3.6² percent in June 2022, remaining constant since March, and an improvement of 39 percent from June 2021. The US current account balance (CAB) deficit improved by 11.1 percent over the June quarter, reflecting a decreased deficit in goods. The US consumer price index (CPI) rose by 7.1 percent over

the June quarter mainly driven by food and energy prices. In its June monetary policy meeting, the Federal Reserve raised the target range for the federal funds rate to 1.5-1.75 percent in continuing support of its monetary policy goals.

Figure 2 : US GDP and CPI

(Percentage Change; Annual Data)

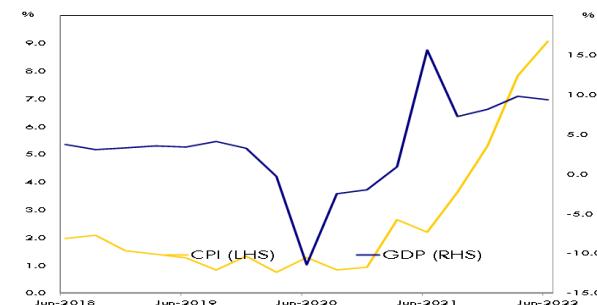

Sources: Bureau of Economic Analysis, Bureau of Labor Statistics

Europe

The Euro Area economy grew by 0.8 percent in the second quarter following a growth rate of 0.5 percent in the first quarter. According to Euro Stats, the lifting of pandemic-related restrictions supported consumer spending, in particular in the services sector. The unemployment rate declined to 6.6 percent in June, from 6.8 percent in March and 7.7 percent in June 2021. Overall, the annual current account surplus declined by 77 percent over the June quarter due particularly to large deficits encountered with China and Russia. Overall headline inflation continued to rise, hitting 8.6 percent in June from 7.4 percent in March. Despite the higher inflationary pressures, the European Central Bank (ECB) maintained its key interest rates during its June meeting as it continues to monitor both domestic and external conditions.

Figure 3 : Euro area GDP and CPI
(Percentage Change; Annual Data)

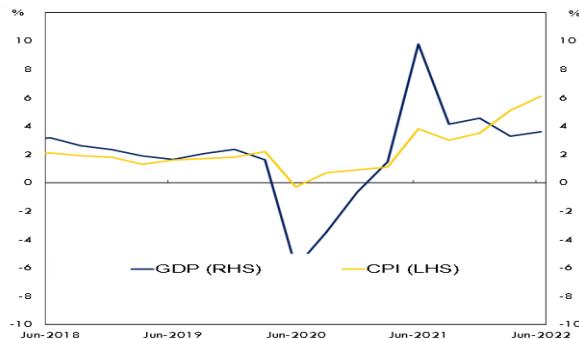

Source: Euro Stats

² US Bureau of Labor Statistics

Australia

The Australian economy grew by 0.9 percent over the June quarter compared to 0.7 percent over the March quarter; as it re-opened domestic and international borders following the pandemic. Increases in household consumption and overall exports mainly contributed to the quarterly growth. The unemployment rate improved, recording 3.5 percent (its lowest level in almost 50 years) in June from 3.9 percent in March. Australia's overall trade balance improved by 94.6 percent over the June quarter as overall growth in exports outpaced the growth in imports. In terms of prices, headline inflation rose to 6.1 percent in the June quarter period, from 5.1 percent in the March quarter period, reflecting mainly the external impact of rising energy prices. The Reserve Bank of Australia (RBA) raised its official cash rate during its June monetary policy meeting by 50 basis points to 85 basis points in light of the continuing rise in inflation.

Figure 4 : Australia GDP and CPI
(Percentage Change; Annual Data)

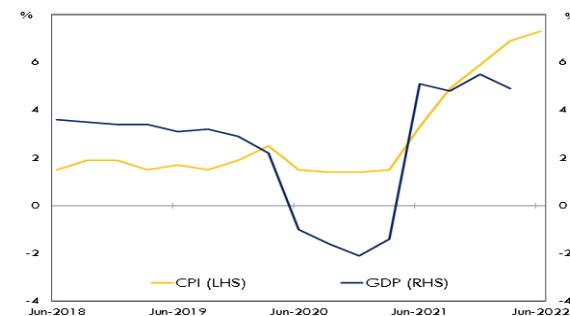

Sources: Reserve Bank of Australia, Australia Bureau of Statistics

New Zealand

New Zealand's gross domestic product (GDP) rose by 1.7 percent over the second quarter, from a 0.2 percent decline in the first quarter. As it re-opened its borders (both domestic and international), the services industries revived, growing by 2.7 percent over the period, outperforming the primary industries (+0.2 percent) and the goods-producing industries (-3.8 percent). According to NZ Stats, the overall unemployment rate remains unchanged in the September quarter period at 3.3 percent. New Zealand's overall current account deficit eased by 17.9 percent over the June quarter underpinned by strong increases of exports of goods and services. Year on year inflation reached 7.3 percent in the June quarter, up from 6.9 percent in the March quarter and 3.3 percent in June quarter 2021.

Figure 5: New Zealand GDP and CPI
(Percentage Change; Annual Data)

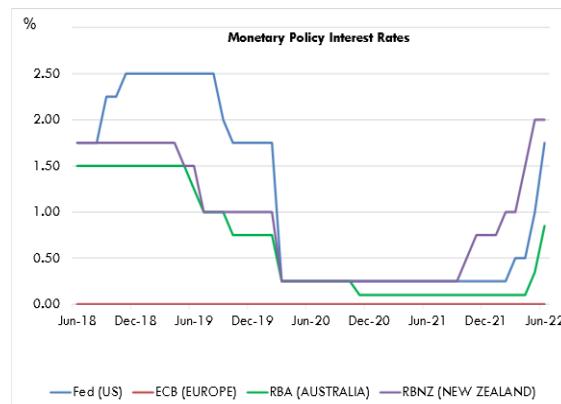

Sources: Reserve Bank of New Zealand, NZ Stats

Key Policy Interest Rates

Global financial conditions have tightened sharply mainly in most emerging markets. Weaker currencies have generated higher cost of external borrowing while investor risk appetite has worsened significantly. Major central banks have sought to tackle rising inflation by increasing interest rates of which in some cases, significant hikes not seen in decades. As a result, sovereign bond yields have increased in most major economies due to these central bank policy actions.

Figure 6 : Key Interest Rates
(Percent; End of Period)

Sources: ECB, Fed, RBA, RBNZ

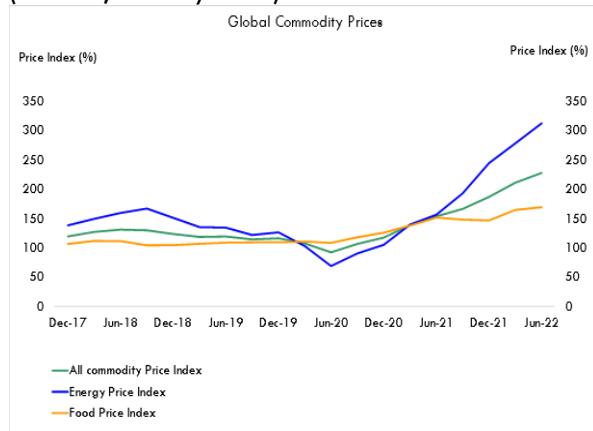

Commodity prices

Global commodity prices, in general, continue to remain high over the reviewed period on a year-on-year basis; however, reductions were noted on a quarterly basis. According to the July WEO, the reduction in the global oil supply was estimated to have pushed prices higher by about 30 percent. Disruptions in supply logistics in Russia, the largest global gas supplier, led to price spikes by almost 200 percent. Export restrictions imposed by some countries on certain major commodities such as cereal and wheat contributed to global food price increases although a

few of the restrictions ended in June 2022. Over the June quarter period, the IMF's All Commodity Index declined by 3.5 percent, with declines in the food price index (-3.0 percent), and the fuel price index (-1.2 percent).

Figure 7: Global commodity prices

(Percent; monthly data)

Source: IMF

3. DOMESTIC ECONOMIC DEVELOPMENTS

3.1 REAL ECONOMY

The Vanuatu Macroeconomic Committee projected the domestic economy to grow by 3.6³ percent in 2022, up from 2.8 percent in 2021, and by 5.0 percent in 2023 (Table 1). The main contributing factors to growth include; the re-opening of international borders, implementation of construction projects that were delayed from past periods and improvement in productivity in the primary sector. The medium term growth outlook remained positive.

General economic activities over the second quarter were impacted by the national lock-down beginning from early March to May 2022. The lockdown generally contributed to increased demand for goods and services. In particular demand for non-essential services weakened as only essential services were allowed to operate during the lockdown.

Growth in the Agriculture sector continued to be underpinned by support measures of the Government and development partners. Construction activity was sustained by ongoing public infrastructure projects. Growth in the services sector was mainly sustained by domestic consumption via remittances inflows, fiscal stimulus packages and tax relief measures offered to businesses and households during the Covid-19.

Table 1: Real GDP Growth (%)

| Sector | 2018 | 2019 | 2020 | 2021f | 2022f |
|-------------------------------------|------------|------------|-------------|-------------|-------------|

| Total GDP | 2.9 | 3.2 | -5.0 | 2.8r | 3.6r |

Source: VBS 2020 GDP Release, Macroeconomic Committee Forecast (6 July 2022); r- revised

Consumption

Over the year to June 2022, commercial banks' lending to the other residents' sectors picked up slightly by 0.4 percent to VT33,247 million from a 0.3 percent reduction over the previous quarter. In addition, there was a slight growth of 1.6 percent from the same period of the previous year.

Value added tax (VAT) collections declined by 0.5 percent over the June quarter in comparison to a 19.8 percent increase recorded from the same period in the previous year.

Imports for food and live animals declined by 7.9 percent over the June quarter and 15.9 percent over the same period of the previous year.

Investment

Commercial banks' lending to businesses declined by 1.3 percent in the year to June 2022 and by 0.2 percent from the same period in 2021.

Imports for machinery and equipment on the other hand increased by 10.5 percent and 13.9 percent over the June quarter and the same period of 2021, respectively.

Labour Market

Many workers were laid off from the drastic impact of the pandemic and border closures on economic activity. Private sector employees, particularly in the tourism sector, were the most affected. The impact of job losses was less severe in public sector employees as government services were less affected during the pandemic. Labour market conditions have since improved following the border re-opening. Job advertisements⁴ have increased by 48.7 percent over

³ Upward revision from 3.00 percent growth in its previous forecast

⁴ Sourced from Vanuatu Wok

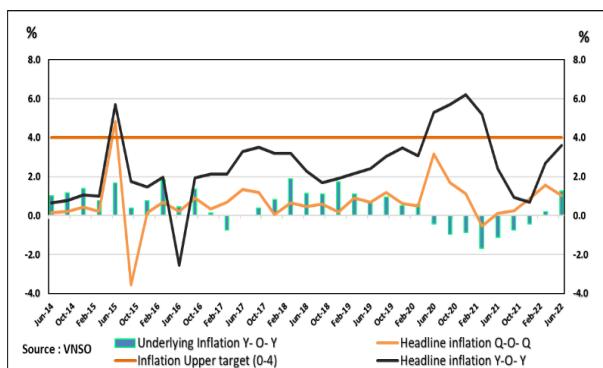

the June quarter indicating a rebound in demand for labour in the domestic labour market.

Inflation

A persistent rise in inflation occurred during the June quarter, predominantly driven by changes in the Government tax policy, from the impact of the lock down, and spill over effects of global supply chain disruptions due to the global pandemic and the Russia/Ukraine conflict.

Annual headline inflation increased by 3.6 percent in the June quarter of 2022 compared to 2.7 percent over the first quarter of the year. The underlying inflation rate increased to 1.1 percent, up from 0.2 percent in the previous quarter, indicating a rise in the overall domestic prices (Figure 8).

Figure 8: Consumer Price Inflation (percentage; Quarterly Data)

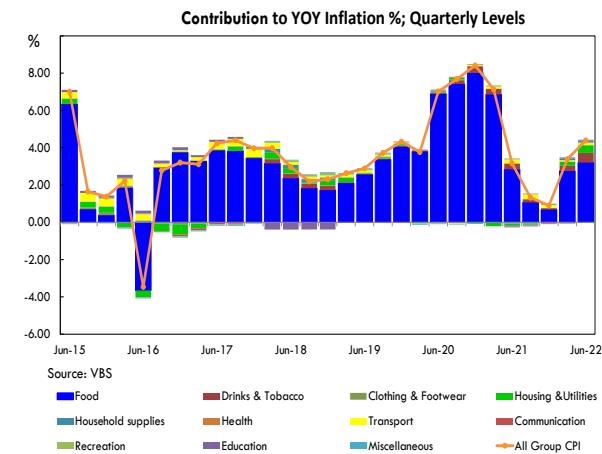

Source: VBS

On a quarter-on-quarter basis, headline inflation recorded 1.0 percent in the second quarter of 2022, down from 1.5 percent in the first quarter. The main categories contributing to the quarter-on-quarter inflation were mainly: Drinks and Tobacco (+2.9%) due to price increase of cigarettes, Housing utilities and Transport (+1.8 %) driven by electricity and water supply charges, petroleum and diesel prices, and food (+0.8%) reflecting a rise in fruits and vegetable prices. Health recorded (+1.3%) to capture inflated prices of prescription drugs, education (+0.2%) due to rise in school fees of tertiary education and miscellaneous (0.1%) to reflect the continuous rise in toiletries charges. In contrary, communication remained constant over the June quarter.

Compared to June quarter of 2021, Vanuatu's CPI increased by (+3.6%). The main categories contributing to year-on-year inflation were: Drinks and Tobacco (+6.6%), Food (+5.2%), Miscellaneous (+4.0%), Housing Utilities (+3.2%), Education (+2.7%), Transport (+2.0%), Recreation (+0.3%) and

Communication (+0.2%). Accordingly, drinks and tobacco was mainly driven by rise in cigarette prices from the impact of the recent amendment in the Government's tax policy of increasing excise tax on cigarettes. Food prices, miscellaneous prices and housing and utilities price increases were mainly driven by root crops and fruits and vegetables, personal accessories and toiletries and electricity and water supply charges respectively, as a result of the national lock down and the subsequent supply chain disruptions.

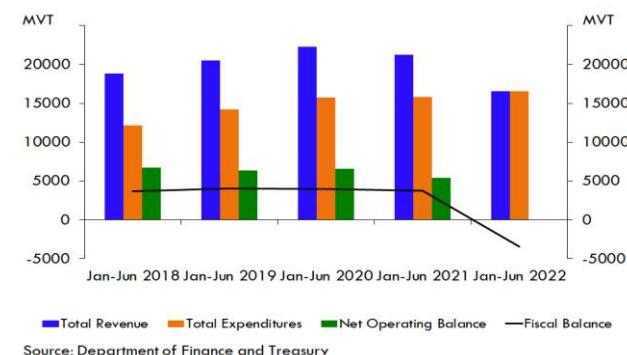

Figure 9: Contributions to Annual CPI inflation (percentage, Quarterly levels)

3.2 FISCAL DEVELOPMENTS

The Central Government operated a fiscal deficit over the year to June 2022; compared to a fiscal surplus recorded in the same period of 2021. This downward trend reflected reduction in both recurrent revenue and donor inflows for the year to June 2022, relative to the corresponding period of 2021.

Figure 10: Fiscal Operation (Jan-Sep Levels)

Total revenue recorded VT16,543.8 million from January to June 2022, lower by 22.1 percent compared to same period in 2021. However, total expenses increased by 4.4 percent from the January to

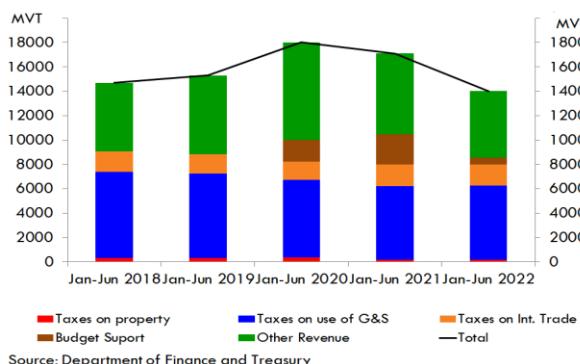

June 2021 levels to record VT16,536.8 million over the year to June 2022.

Though, total revenue collections declined compared to same period in 2021; its level slightly exceeded overall expenses, resulting in a net operating surplus of VT7.1 million. However, after netting out the value of VT3,444.4 million in net acquisition of non-financial assets, resulted in an overall fiscal deficit of VT3,437.4 million.

RECURRENT REVENUE

Recurrent revenue underperformed from January to June 2022, recording VT14,006.8 million, which was lower by 18 percent relative to the same period of 2021. This downward trend reflected reductions in major revenue categories such as; taxes on international trade, other revenues, excise taxes, taxes on property and recurrent budget support from donor partners. On the other hand, value added tax increased relative to the same period in 2021. The weaker level of major revenue categories continues to reflect the slowdown in economic activities due to the Covid-19 pandemic, the recent amendments in Government's policy on Excise tax rates and lower collections of revenue from the honorary citizenship programs.

Figure 11: Recurrent Revenue
(Jan-Sep Levels)

Taxes on the use of goods and services amounted to VT6,104.8 million during the reviewed period, higher by 1.4 percent compared to same period of 2021. This was mainly attributed to the robust growths recorded for VAT and other taxes; offsetting the decline in excise taxes. VAT recorded VT3,989.2 million, higher by 18.1 percent relative to the same period of 2021. The upward trend in VAT continues to reflect effective compliance measures of the authorities and stronger domestic consumption. Other taxes on goods and services increased by 6.5 percent to reach VT1,215.4 million.

Figure 12: Taxes on use of Goods and Services
(Jan-Sep Levels)

Taxes on international trade and transactions , slightly fell by 2.0 percent relative to the same period of 2021 to record VT1,709.0 million. Furthermore, taxes on property were down by 18.4 percent over the year to June 2022, to record VT165.0 million.

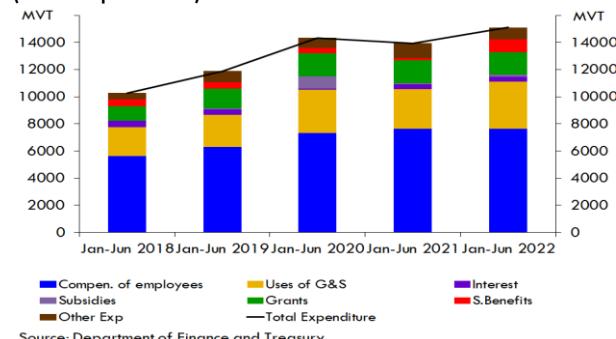

Other revenue recorded VT5,473.4 million in the first six months of 2022, lower by 17.4 percent from the same period in 2021. This downward trend reflected lower revenue collections from the honorary citizenship programs.

The Government received VT554.7 million in budget support from January to June 2022, lower by 77.7 percent relative to the amount received in the same period of 2021.

RECURRENT EXPENDITURE

Recurrent expenses recorded VT15,106.6 million in the first six months of 2022, higher by 8.3 percent from the same period in 2021. Higher spending items included: compensation of employees, uses of goods and services, subsidies and social benefits. In contrast, lower spending was recorded for interest payments, grants to grant bodies/statutory bodies and other expenditures.

Figure 13: Recurrent Expenditure
(Jan-Sep Levels)

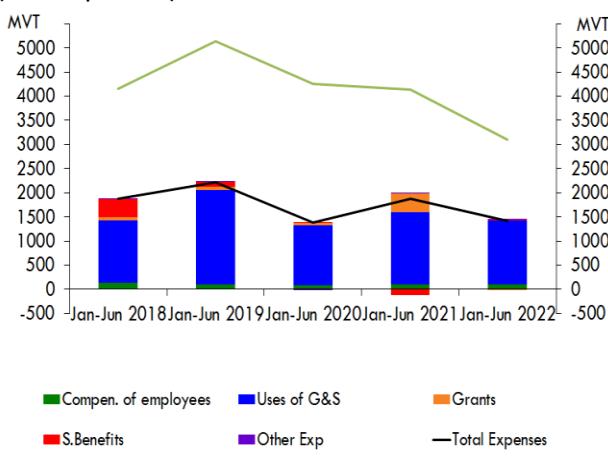

RECURRENT FISCAL BALANCE

As recurrent revenue collections were lower than expenses, a net operating deficit of VT1,099.7 million was recorded. Financing, the value of VT1,461.5 million in net acquisition of non-financial assets from this balance, resulted in a recurrent fiscal deficit of VT2,561.2 million from January to June 2022.

DEVELOPMENT BUDGET

Total project grants received from donor partners recorded VT3,102.3 million from January to June 2022, lower by 25.1 percent from the corresponding period of 2021. Similarly, project grant expenses fell by 24.0 percent relative to the same period of 2021, to reach VT1,430.2 million.

Figure 14: Donor Financing
(Jan-Sep Level)

Source: Department of Finance and Treasury

Since project grants exceeded expenses, a net operating surplus of VT1,672.1 million was realized. Furthermore, financing the value of VT1,983.0 million in net acquisition of non-financial assets led to a fiscal deficit of VT310.8 million under donor financing.

FISCAL FINANCING

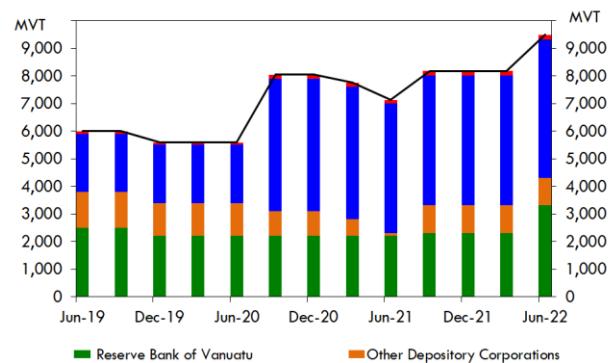

With the recurrent operating deficit and the increase in need to finance its expenditures; the Government issued VT1,315.2 million worth of domestic debt in the first six months of 2022. Furthermore, the government repaid VT1,597.1 million worth of external debt in the first six months of 2022.

GOVERNMENT BOND MARKET

Total domestic debt expanded to VT9,494.4 million in the second quarter of 2022, relative to VT7,133.2 million in corresponding quarter of 2021. This upward trend reflected the issuance of VT1,315.2 million worth of new government bonds during the reviewed period.

Of this amount, Other Financial Corporations claim the largest share of 52.7 percent, followed by the Reserve Bank at 34.9 percent, Commercial Banks at 10.5 percent and Other Resident Sectors with 1.9 percent.

Figure 15: Outstanding Government Bonds
(Quarterly Level)

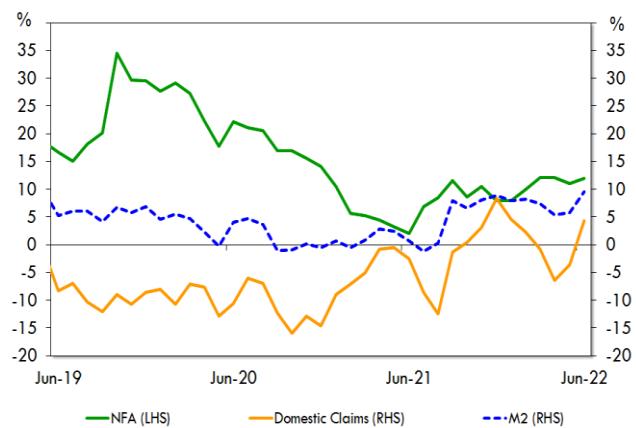

Source: Reserve Bank of Vanuatu

3.3 MONETARY DEVELOPMENTS

Banking sector activities continue to increase further relative to the previous year, as reflected in the positive growth in broad money (M2). M2 rose by 1.8 percent and 9.6 percent quarter-on-quarter and year-on-year, respectively, to reach VT105,554.9 million at the end of the reviewed quarter. Money growth quarter-on-quarter and year-on-year was determined by the increased growth in both net foreign assets (NFA) and domestic credit. In terms of its components, narrow money (M1) remained the main driver for money growth, quarter-on-quarter and year-on-year, respectively.

Figure 16: Determinants of Money Supply
(Percentage Change; Year-on-Year Growth)

Source: Other Depository Corporations; Reserve Bank

The RBV continues to maintain an accommodative monetary policy stance from 2021 and up to the first six months of 2022. The Bank's policy interest rate

remained at 2.25 percent. Similarly, the Statutory Reserve Deposits (SRD) ratio, the Liquid Asset Ratio (LAR) and the Capital Adequacy Ratio (CAR) were maintained at 5.25 percent, 5.0 percent, and 10.0 percent, respectively. The Bank's Imports Substitution and Export Finance Facility (ISEFF) and the Disaster Reconstruction Credit Facility (DRCF) remained operational. Overall, monetary conditions remain supportive of growth, as reflected by the persistent high level of excess reserves and sound capital position of commercial banks.

The twin objectives of monetary policy remained within their respective targets. Annual inflation recorded 3.6 percent during the June quarter of 2022, and official foreign reserves were sufficient to cover 11 months of import cover at the end of June 2022. Furthermore, excess reserves stood at VT35,514.3 million at the end of the reviewed quarter.

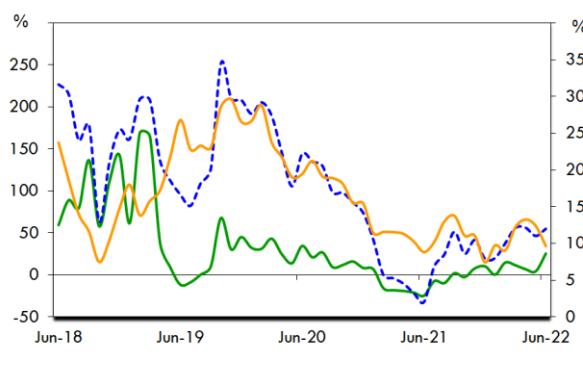

OTHER DEPOSITORY CORPORATION (ODCs)

DETERMINANTS OF MONEY SUPPLY

Net Foreign Assets (NFA)

NFA maintained the positive momentum during the first six months of 2022. At the end of the June quarter, it expanded by 0.5 percent quarter-on-quarter and 12.0 percent year-on-year to VT82,380.8 million. The quarter-on-quarter increase was attributed to net inflows of foreign reserves recorded by commercial banks. Additionally, the year-on-year growth reflected net inflows of foreign reserves via both the Reserve Bank and commercial banks.

Figure 17: Net Foreign Assets
(Percentage Change; Year-on-Year Growth)

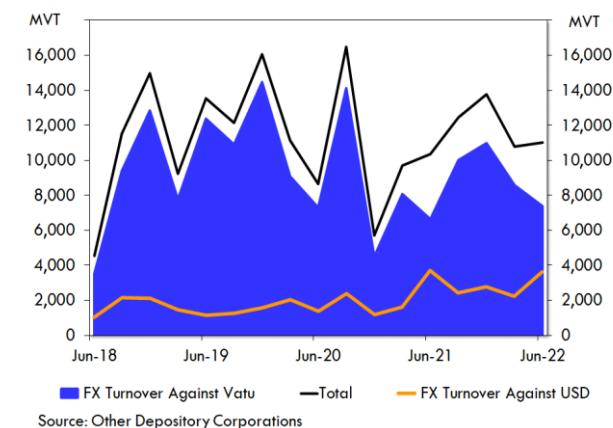

Source: Other Depository Corporations; RBV

Foreign Exchange Turnover⁵

Earnings of commercial banks from foreign exchange transactions recorded VT10,996.1 million. Earnings were higher by 1.9 percent quarter-on-quarter and 6.1 percent year-on-year. The quarterly growth was determined by higher gains via trading against the US Dollar. Similarly, the year-on-year expansion was attributed to the gains via trading against the local currency (Vatu). In terms of customers, the upward trend was attributed to trading via non-resident and other customers. All transactions were carried out in the outright spot and forward markets and none for swap markets. During the reviewed quarter, 66.9 percent of earnings were generated via trading against the local currency (Vatu), while 33.1 percent via trading against the US Dollar.

Figure 18: Foreign Exchange Turnover Position of Domestic Banks
(Millions of VT)

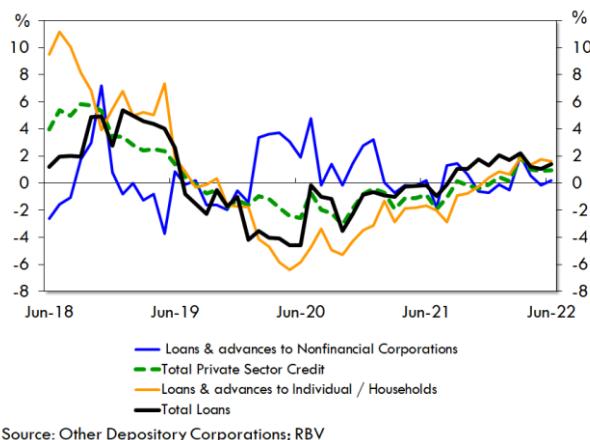

Domestic Claims

Growth in domestic credit improved by 3.3 percent and 4.3 percent quarter-on-quarter and year-on-year, respectively to reach VT42,395.2 million. The quarter-on-quarter growth was determined mainly by the increase in net claims on the central government as the government increased its claims (bond holdings) with the Reserve Bank (RBV). Furthermore, the year-on-year growth reflected increases in both net claims on the central government and private sector credit.

Private sector credit (PSC) fell by 0.4 percent quarter-on-quarter, however, the level was higher by 1.0 percent year-on-year to VT59,746.5 million. The annual trend in PSC reflected slight improvement in economic conditions as the Government continues to support economic recovery via its stimulus packages, subsidies and a Covid-19 special banking facility.

⁵Involves trading in major currencies, such as the Euro, NZD, AUD, GBP and other currencies against the Vatu and the US dollar.

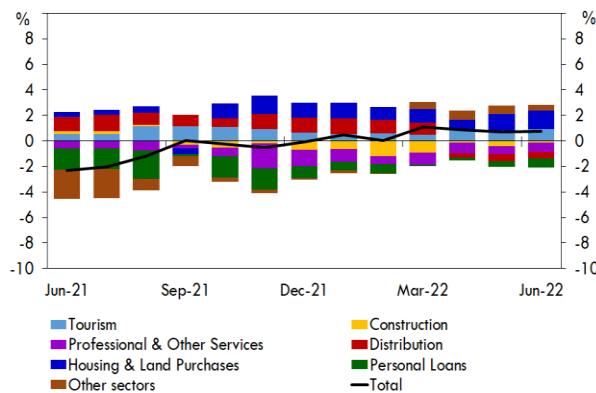

Figure 19: Private Sector Credit
(Year-On-Year Growth; By Categories)

Sectors which made positive contribution to the year on growth in private sector credit included: agriculture, manufacturing, tourism, entertainment & catering, transport, housing and land purchases and forestry. The negative contributions to the year on year growth included loans to fisheries, mining & quarrying,public utilities, construction, professional & other services, distribution, communications and personal loans.

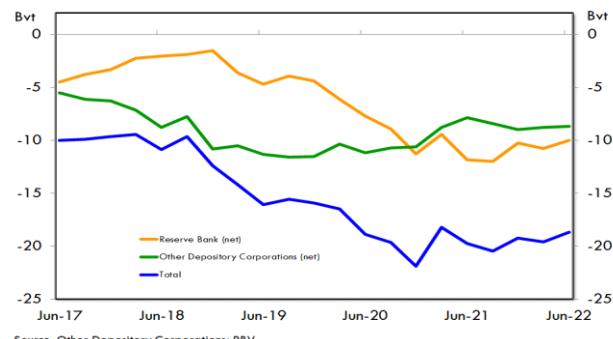

Figure 20: Contributions to Growth of Total ODC Loans

(Contribution to Year Ended Growth; By Sectors)

The Central Government's net credit position vis-à-vis the banking system deteriorated, as net claims on the central government increased by 8.2 percent and 5.2 percent quarter-on-quarter and year-on-year, respectively. This deterioration reflected the significant increase in government claims (bond holdings) with the Reserve Bank during the reviewed quarter.

Figure 21: Net Claims of the Vanuatu Government Vis-à-vis the Total Banking Sector
(Levels, Billions of VT)

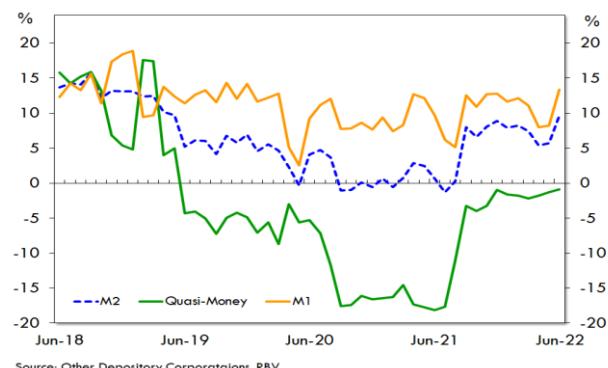

MEASURES OF MONEY SUPPLY

M1, which represents money flow into the economy, expanded further by 3.9 percent quarter-on-quarter and 13.4 percent year-on year to VT80,271.4 million. The quarter-on-quarter and year-on-year growths were attributed to the upsurges in both transferable deposits and currency in circulation.

Currency in circulation rose by 9.7 percent and 18.7 percent, quarter-on-quarter and year-on-year, respectively, to reach VT12,054.2 million. The robust growth in currency in circulation quarter-on-quarter and year-on-year, reflected strong domestic consumption due to liquidity injection via the Government's series of stimulus programs and the Covid-19 hardship loans of the Vanuatu National Provident Fund to its members. Similarly, transferable deposits further increased by 3.0 percent and 12.5 percent, quarter-on-quarter and year-on-year, respectively to reach VT68,217.2 million. The following sectors increased their respective transferable deposits during the quarter and year; thus, contributing to this upward trend; other financial corporations, public non-financial corporations, other non-financial corporations and other resident sectors.

Figure 22: Money Supply Components
(Percentage Change; Year-on-Year Growth)

Quasi-money recorded VT25,283.5 million, lower by 4.3 percent and 0.9 percent quarter-on-quarter and year-on-year, respectively. Sectors which recorded declines in their interest-bearing deposits during the quarter includes; other financial corporations, state and local governments, other non-financial corporations and other residents' sectors.

INTEREST RATES⁶

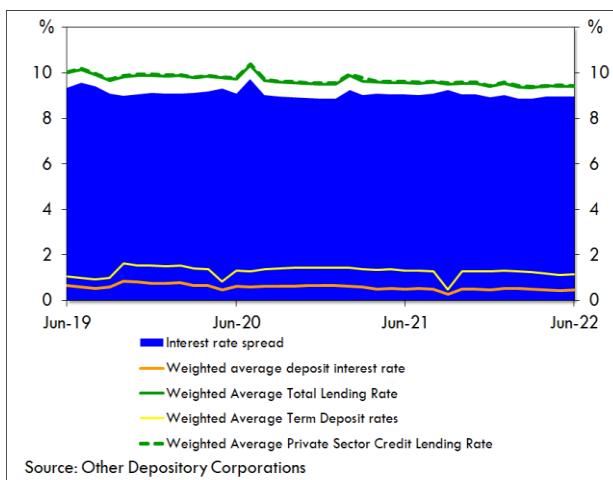

Interest rates increased quarter-on-quarter as depicted by the rise in interest rates spread. However, the year-on-year interest rates have fallen as interest rate spread declined relative to June quarter 2021.

The weighted average interest rates on total deposits were lower by 0.06 percentage points quarter-on-quarter and year-on-year, respectively to 0.45 percent. Similarly, the weighted average interest rates on fixed deposit rates fell by 0.10 and 0.15 percentage points, quarter-on-quarter and year-on-year, respectively to 1.15 percent.

In terms of lending rates, the weighted average interest rates on total loans rose by 0.04 percentage points quarter-on-quarter; but fell by 0.17 percentage points year-on-year to 9.40 percent.

The slight rise in the weighted average interest rate on total lending, with the ease in the weighted average interest rates on total deposits resulted in the upward trend in interest rates spread by 0.10 percentage points to 8.95 percent. However, interest rates spread was lower by 0.11 percentage points from the previous year.

Figure 23: Interest Rate
(Percent, Month-End Rates)

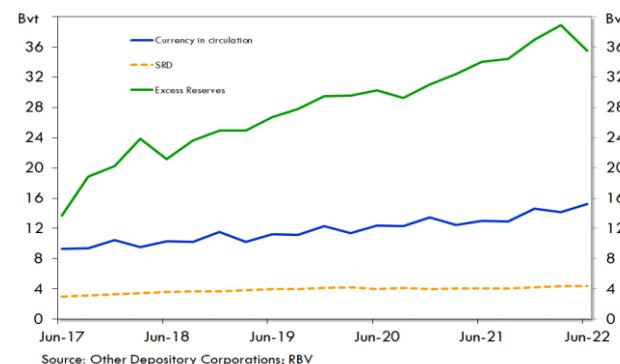

⁶Interest rates in Vanuatu have always been characterised by very high lending rates and low deposits rates.

MONETARY BASE (M0)

Base money declined by 4.1 percent quarter-on-quarter to reach VT55,073.8 million. However, this level was higher by 15.3 percent relative to the same quarter of 2021. The quarter-on-quarter downward trend was attributed to the decline in excess reserves. On the other hand, the year-on-year growth was attributed to increases in all components; excess reserves, currency in circulation and Statutory Reserve Deposit (SRD). Excess reserves recorded VT35,514.3 million, lower by 8.7 percent quarter-on-quarter; but higher by 15.3 percent year-on-year, respectively. Furthermore, SRD rose by 0.1 percent and 7.1 percent, quarter-on-quarter and year-on-year, respectively to VT 4,368.1 million. Currency in circulation further expanded as previously mentioned under M1.

Figure 24: Components of Reserve Money
(Levels; Billions of VT)

OTHER FINANCIAL INSTITUTIONS (OFI)⁷

The asset performance for this sector depicted mixed results during the reviewed period. OFIs holdings of net foreign assets (NFA) expanded by 0.8 percent and 41.4 percent quarter-on-quarter and year-on-year, respectively to VT467.5 million. Shares and other equity investment rose by 0.1 percent quarter-on-quarter and 8.1 percent year-on-year to VT7,426.0 million. Similarly, investments in Government bonds, further increased by 6.38 percent quarter-on-quarter and year-on-year, respectively to VT5,000 million.

In contrast, assets which recorded declines include; deposits with Commercial banks, which fell by 10.7 percent and 36.3 percent, quarter-on-quarter and year-on-year, respectively to VT2,243.8 million. Outstanding loans declined by 1.7 percent and 10.3 percent, quarter-on-quarter and year-on-year, respectively to VT3,717.3 million. Out of the total loans, other non-financial corporations or businesses grabbed 60.0 percent of the share of loans, followed

⁷Covers Credit Corporation Vanuatu Ltd; Vanuatu Agriculture Bank; and Vanuatu National Provident Fund.

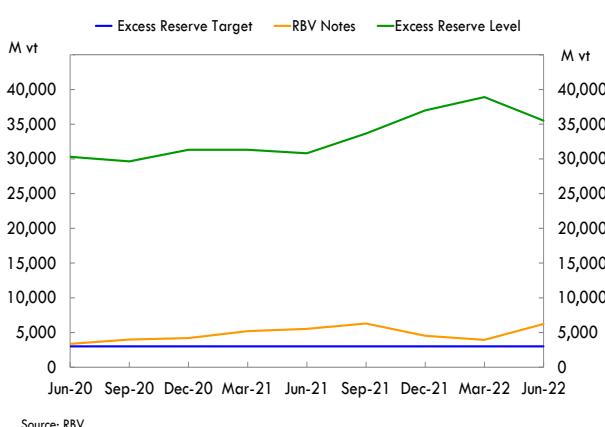

by public non-financial corporations at 22.9 percent and other resident sectors or individuals and households with 17.2 percent of outstanding loans.

In terms of liabilities; insurance and technical reserves rose by 8.6 percent quarter-on-quarter and 7.8 percent year-on-year to VT27,756.9 million. Similarly, shares and other equity declined by 13.2 percent quarter-on-quarter, but rose by 78.0 percent year-on-year to VT2,781.3 million. Deposits also fell by 16.9 percent and 40.2 percent quarter-on-quarter and year-on-year, respectively, to reach VT580.6 million.

MONEY MARKET DEVELOPMENT

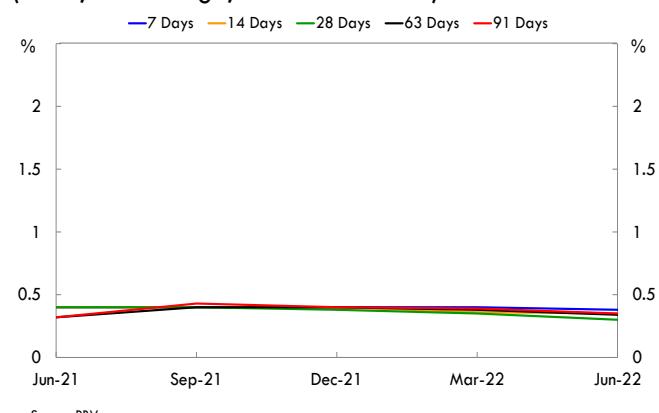

Commercial banks' excess reserves decreased to VT35,514.3 million in the June quarter of 2022, from VT38,911.9 million in March 2022. This downtrend reflected the continuous increase in the RBV Notes outstanding and higher Currency in Circulation.

Figure 25a : Bank Excess Reserves
(Levels, Millions of Vatu, Month-End Data)

Total outstanding RBV Notes expanded from VT3,942 million in the preceding quarter to VT6,237 million at the end of the second quarter. During the review period, the Bank floated VT14,400 million in RBV Notes and received a total of VT33,004 million in bids from commercial banks, of which, it allotted VT13,406 million to successful open market auction bidders. RBV Notes allotments during the reviewed quarter were as follows: VT2,569 million was allotted to the 7 days, VT2,279 million was allotted to the 14 days, VT2,921 million was allotted to the 28 days, VT2,570 million was allotted to the 63 days and VT3,067 million was allotted to the 91 days maturity.

Figure 25b : RBV Notes Yield
(Level, Percentage, Month-End Data)

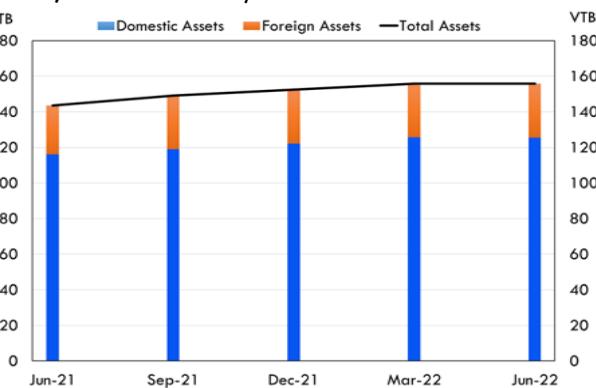

The interest rates on all categories of RBV Notes showed changes in the second quarter as shown in figure 25b. Between the various categories of RBV Notes: the 7 days Notes interest rates declined to 0.38% (previous 0.40%), 14 days Notes interest rates decreased to 0.35% (previous 0.36%), 28 days Notes interest rates decreased to 0.30% (previous 0.35%), 63 days Notes interest rates decreased to 0.34% (previous 0.38%), and the 91 days RBV Notes' interest rate decreased to 0.35% (previous 0.39%).

3.4 BANKING SECTOR DEVELOPMENTS

Domestic Banks

Financial Position

Figure 26: Asset Position – Domestic Banks
(Levels; Billions of Vatu)

The domestic banking industry's balance sheet registered both a quarter-on-quarter and a year-on-year growth of 0.1 percent and 8.6 percent respectively to VT155.9 billion. This mostly reflects quarterly increase in total foreign assets by 0.9 percent to VT30.4 billion despite total domestic assets decreasing by 0.1 percent over that same quarter to VT125.5 billion. However, when compared annually

both total domestic and foreign assets rose by 8.0 percent and 11.0 percent respectively.

The quarter-on-quarter expansion in foreign assets is largely attributed to the increase in claims on non-residents and foreign currency cash by 9.0 percent to VT9.5 billion and 16.8 percent to VT877.8 million respectively. Balances due from financial institutions abroad decreased by 3.1 percent to VT20.0 billion. On an annual basis, increments were witnessed in all foreign assets by 7.3 percent, 5.0 percent and 26.7 percent in foreign currency cash, balances due to financial institution abroad and claims on non-residences in that order.

Total domestic assets contracted as cash (VUV), claims on central government, non-financial institutions and private sector registered quarter-on-quarter declines of 0.8 percent to VT3.1 billion, 36.4 percent to VT1.4 billion, 6.4 percent to VT1.3 billion and 0.4 percent to VT59.5 billion respectively. On the other hand, claims on RBV, other local government, financial institutions and other domestic assets inclined by 1.7 percent to VT45.9 billion, 5.2 percent to VT30.2 million, 4.1 percent to VT1.2 billion and 1.6 percent to VT13.0 billion correspondingly. Year-on-year, apart from claims on other local government which decreased by 7.2 percent, all else increased: cash (VUV) by 14.8, claims on RBV by 16.7, central government by 179.6 percent, financial institutions by 10.8 percent, non-financial institutions by 10.7 percent, private sector by 0.8 percent and other domestic assets by 6.1 percent.

The domestic assets of the banking industry are comprised of claims on private sector (47.4 percent), claims on RBV (36.6 percent), other domestic assets (10.3 percent), cash (VUV) (2.5 percent), claims on central government (1.1 percent), claims on non-financial institution (1.1 percent), claims on financial institution (1.0) and claims on other local government (0.02 percent).

Capital Adequacy

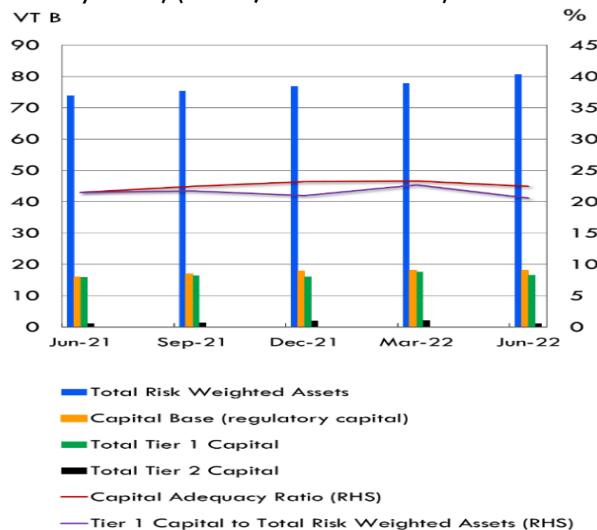

The domestic banking industry remains well capitalized with capital adequacy ratio (CAR) well above the minimum threshold of 10.0 percent, at 22.5 percent at the end of the reviewed quarter (23.3 percent: Mar-22 and 21.5 percent: Jun-21).

The quarterly decrease in CAR is mostly attributed to a 3.6 percent expansion in total risk weighted assets (TRWA) to VT80.6 billion, coupled with a contraction in total capital base of 0.1 percent to VT18.1 billion. Over the year, both capital base and TRWA grew by 13.9 percent and 9.1 percent respectively.

The drop in capital base was due to a 5.9 percent decrease in tier 1 capital to VT16.6 billion, despite, tier

2 capital inclining by 61.9 percent quarter-on-quarter to VT1.8 billion. The reduction in tier 1 capital reflected movements in retained earnings and further adjustments, while the increase in tier 2 capital mostly resulted from incline in year to date profit. However, over the year both tier 1 and 2 capital rose by 4.2 percent and 29.0 percent, respectively.

**Figure 27: Capital Adequacy & Tier 1 Ratio
(Quarterly Data) (Levels, Billions of Vatu)**

The reviewed period saw an increase in on-balance sheet risks by 2.0 percent to VT71.7 billion as well as off-balance sheet risks by 75.0 percent to VT3.7 billion, whilst operational risks stabilized at VT7.6 billion over the quarter. Year-on-year movements saw increases in both on and off-balance sheet risk weighted assets as well as operational risks, respectively, by 7.5 percent, 116.4 percent and 3.0 percent.

Financial Performance

Despite being heavily challenged by the current pandemic situation, the banking industry's financial performance remains satisfactory. The reviewed quarter registered underlying profits of VT531.5 million which was more than that of the previous quarter and year by 38.6 percent and 29.6 percent, respectively. The quarterly increase mostly reflected the increase in total operating income over the quarter by 10.3 percent to VT2.0 billion which outweighed increase in total operating expenses of 2.8 percent to VT1.5 billion. Similarly, yearly increases of 10.1 percent and 4.5 percent were witnessed in both total operating income and expenses in that order.

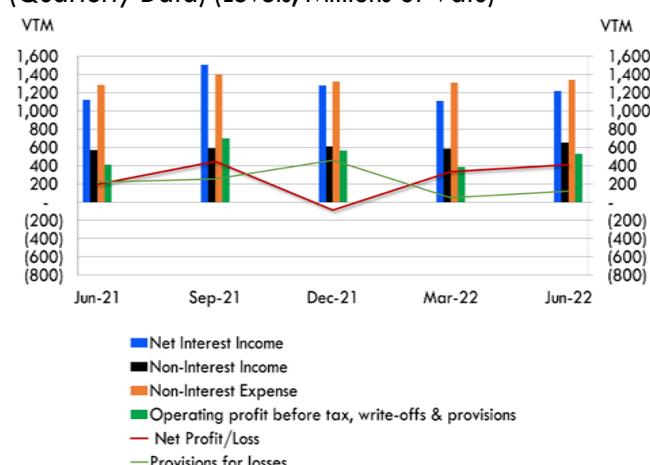

Interest income rose over the quarter and year by 10.0 percent and 8.4 percent correspondingly to VT1.4 billion. In the same manner, interest expense also increased over the quarter by 9.7 percent to VT153.6 million and by 5.9 percent when compared over the year. Consequently, net interest income grew by 10.0

percent quarter-on-quarter and by 8.7 percent year-on-year to VT1.2 billion. Furthermore, non-interest income increased over the quarter and year by 10.8 percent and 13.7 percent respectively to VT650.5 million. Non-interest expense hiked up to VT1.3 billion which is a quarterly growth of 2.1 percent; yearly growth of 4.3 percent.

The increase in risks and unfavourable economic indicators has resulted in rise of provision expenses over the reviewed quarter from earnings. Specific provisions expense for loan losses increased over the quarter and year by 14.2 percent and 15.2 percent respectively to VT 119.3 million. Equivalently, general provisions expenses of VT14.5 million were higher than the previous quarter, although, lower than the prior year by 132.6 percent and 89.4 percent respectively. In contrast, specific provisions expense for other losses remains negative at VT14.2 million which is an increase of 35.3 percent quarter-on-quarter, whilst reducing yearly by 41.9 percent. Therefore, the industry recorded a net profit of VT411.8 million compared to VT334.0 million recorded at the end of the previous quarter and VT193.1 million recorded in the same quarter of the previous year.

The above financial performance development resulted in both annualised ROA and ROE quarterly strengthening to 1.0 percent (0.9 percent: Mar-22; 0.8 percent: Jun-21) and 7.2 percent (6.5 percent: Mar-22; 6.5 percent: Jun-21) respectively. In contrast, interest margin to gross income slightly decreased to 65.3 percent compared to 65.4 percent and 67.5 percent recorded during the previous quarter and year respectively. In addition, Non-interest expense to gross income also improved to 74.4 percent (77.4 percent: Mar-22; 77.7 percent: Jun-21).

Figure 28: Earnings – Domestic Banks
(Quarterly Data) (Levels, Millions of Vatu)

Asset Quality

The industry's loan book showed improvement on a quarterly and yearly basis as non-performing loans (NPLs⁸) depicted quarterly and yearly contractions of 5.1 percent and 7.2 percent respectively to VT10.9 billion. Total NPLs to gross loans⁹ ratio also decreased compared to previous quarter to 15.4 percent (16.3 percent: Mar-22, 17.2 percent: Jun-21). Net NPLs to capital ratio remains high, however, lowering to 43.5 percent at the end of the reviewed period (46.7 percent: Mar-22; 56.1 percent: Jun-21). Contractions in NPL as well as increase in capital both contributed to improvements in these asset quality indicators over the quarter.

Development within the high credit risk categories saw substandard loans decrease quarter-on-quarter by 13.0 percent to VT4.5 billion and by 20.7 percent year-on-year. In contrast, doubtful loans rose over the quarter by 4.9 percent to VT3.1 billion and by 6.6 percent when compared over the year. Loss loans recorded VT3.3 billion for the quarter which is a drop of 1.6 percent from the previous quarter but an increase of 4.4 percent year-on-year.

The majority (84.6 percent) of the lending book remained as performing loans, i.e., standard and special mention loans. Standard loans grew over the quarter and year by 2.3 percent and 6.1 percent respectively to VT53.4 billion whilst special mention loans decreased quarterly by 2.0 percent to VT6.5 billion, although a yearly increment of 6.1 percent. The movements within these performing loan categories resulted mainly from reclassification of loans over the reviewed period.

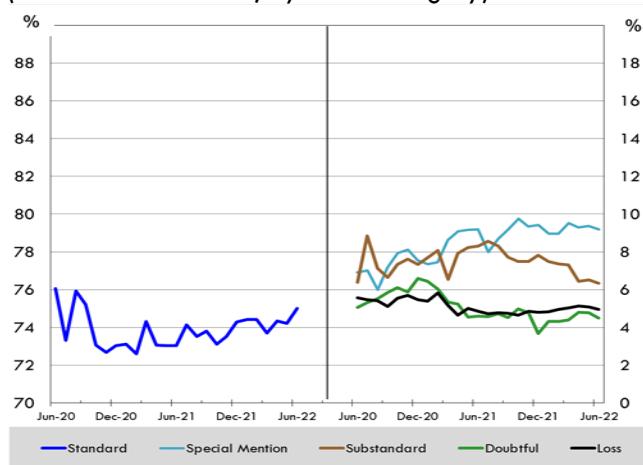

General provisions increased both quarterly and yearly by 9.6 percent and 24.7 percent respectively, to VT3.3 billion. On the other hand, specific provisions contracted over the quarter by 0.6 percent to VT3.0 billion, however, an increase of 6.5 percent over the year.

Specific provisions to non-performing loans stood at 27.4 percent (26.2 percent: Mar-22; 23.8 percent: Jun-21) while general provisions to gross loans was 4.6 percent (4.2 percent: Mar-22; 3.8 percent: Jun-21).

⁸Include loans & advances classified as Substandard, Doubtful & Loss

⁹Loans & Advances to both residents & non-residents

Figure 29: Asset Quality – Domestic Banks
(Share of Total Loans, By Loan Category)

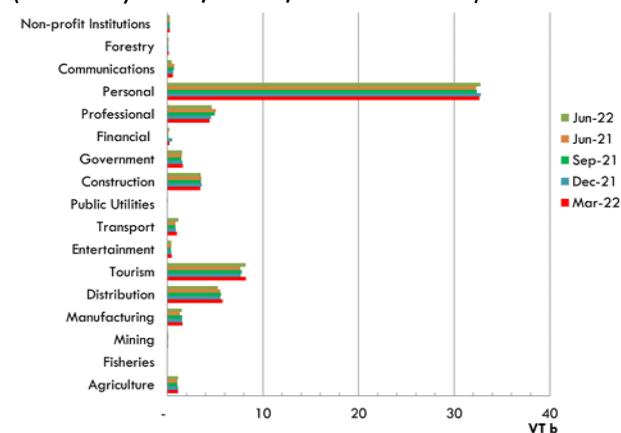

Private Sector Lending

The private sector credit (PSC) growth remains subdued registering slight contraction quarterly by 0.5 percent, however, it recorded a yearly incline of 1.0 percent to VT61.2 billion. The slight reduction is attributed to general decrease in demand for credits within the economy in addition to banks continuing to maintain tight book management. Sectors contributing to the decrease during the reviewed quarter includes: agriculture (1.5 percent to VT1.1 billion), manufacturing (6.0 percent to VT1.5 billion), distribution (8.6 percent to VT5.3 billion), tourism (0.4 percent to VT8.2 billion), entertainment (2.6 percent to VT0.4 billion), government (4.4 percent to VT1.5 billion), financial (7.8 percent to VT0.2 billion), communication (24.2 percent to VT0.4 billion), forestry (2.9 percent to VT0.1 billion) and non-profit institutions (1.5 percent to VT0.3 billion).

In contrast, the following sectors depicted quarter-on-quarter inclines: transport (18.1 percent to VT1.2 billion), construction (0.7 percent to VT3.5 billion), professional (5.2 percent to VT4.7 billion) and personal (0.4 percent to VT32.7 billion).

Private sector credit continues to record high concentration in loans to personal (53.5 percent), tourism (13.4 percent), distribution (8.6 percent), professional & other (7.6 percent) and construction (5.7 percent) sector.

Figure 30: Private Sector Credit Domestic Banks
(Quarterly Data, Levels, Billions of Vatu)

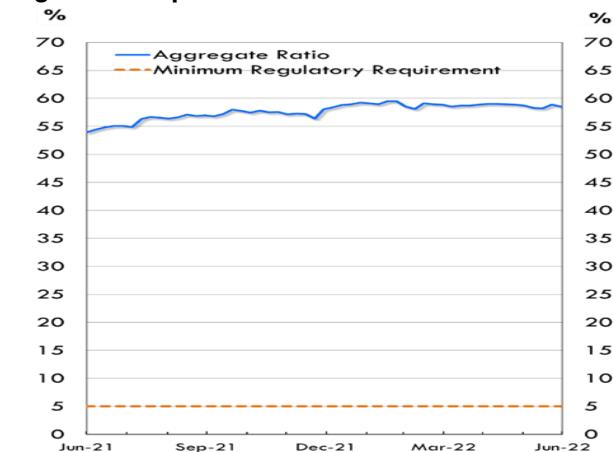

Liquidity Position

The domestic banking industry's liquidity position remained high with liquid asset ratio (LAR) of 58.5 percent at the end of June 2022 (58.9 percent: Mar-22; 54.0 percent: Jun-21) well above the minimum regulatory threshold of 5 percent.

Total holdings of Vatu liquid assets slightly reduced quarter-on-quarter by 0.6 percent, however, it increased by 19.5 percent year-on-year to VT45.7 billion. This is a VT40.2 billion in excess over the required threshold of VT5.5 billion. Customer deposits continued to be the core source of funding during the reviewed period.

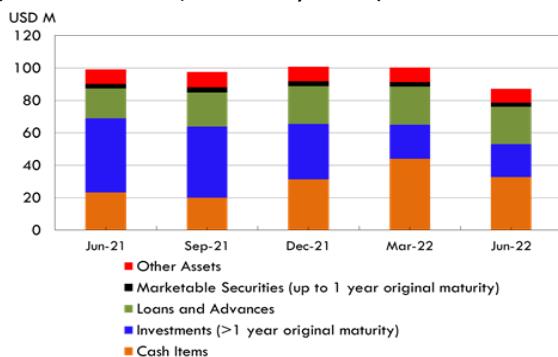

Figure 31: Liquid asset ratio –Domestic Banks

International Banks

Financial Position

Figure 32: Offshore Banking Industry – Total Assets
(Millions of USD, Quarterly Data)

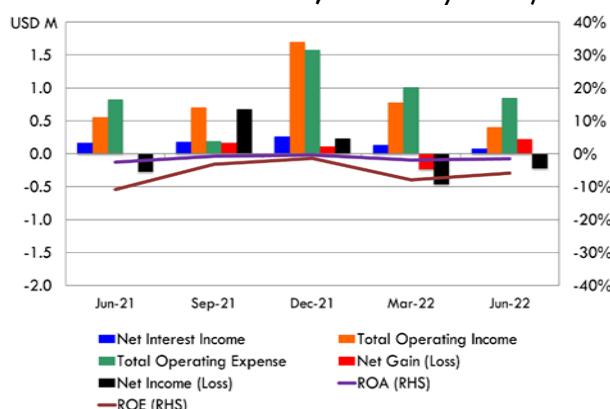

The international banking industry's total asset dropped quarter-on-quarter and year-on-year by 13.2 percent and 12.2 percent respectively to USD87.1 million. All asset components registered negative growth over the quarter. Cash items, Marketable Securities, Loans & advances, Investments and Other assets dropped by; 25.8 percent to USD32.6 million, 10.7 percent to USD2.5 million, 2.4 percent to USD23.0 million, 2.9 percent to USD20.4 million and 4.2 percent to USD8.6.0 million in that order.

Similarly, total liabilities (less capital) decreased quarter-on-quarter and year-on-year by 16.5 percent and 16.3 percent respectively to USD64.1 million. Deposits, Accrued liabilities and Other liabilities decreased quarter-on-quarter by; 17.1 percent to USD59.8 million, 0.5 percent to USD3.2 million and 46.9 percent to USD508.0 thousand correspondingly. In contrast, term debt and other borrowings increased by 21.3 percent to USD599.0 thousand over the reviewed quarter.

Financial Performance

Figure 33: Offshore Banking Industry Earnings
(Millions of USD & Percent; Quarterly Data)

The offshore banking industry's financial performance showed some improvement over the reviewed quarter. Both ROA and ROE increased during the quarter by 0.4 percentage point to -1.5 percent (Mar22: -1.9%) and 2.0 percentage point to -5.9 percent (Mar22: -7.9%) respectively.

Total operating income dropped quarter-on-quarter and year-on-year by 48.0 percent and 27.1 percent respectively to USD406.0 thousand. The quarterly movement is attributed to declines in both interest income and non-interest income. Interest income dropped quarter on quarter by 32.0 percent to USD123.0 thousand, mostly due to a decrease in interest income on loans and deposits with banks. While non-interest income fell by 52.8 percent to USD283.0 thousand over the quarter, due to fall on other services charges, commissions & fees by 52.9 percent to USD281.0 thousand (Mar22: USD597.0 thousand).

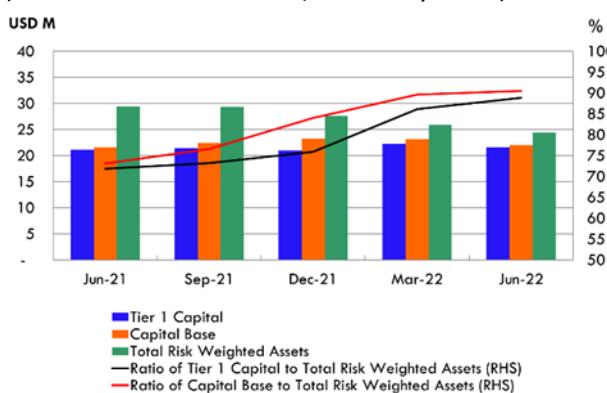

On the expense side, total operating expenses also declined quarter-on-quarter by 15.5 percent while it increased year-on-year by 3.1 percent to USD853.0 thousand. This reflected decreases in both Interest and non-interest expenses over the quarter by 4.3 percent to USD44.0 thousand and 16.1 percent to USD809.0 thousand respectively. The quarterly decreased in non-interest expense was related mostly to falls in personal expenses and premises & fixed expenses by 54.4 percent to USD186.0 thousand and 42.3 percent to USD60.0 thousand correspondently. Inversely, other operating expenses increased by 24.6 percent to USD563.0 thousand over the quarter.

Despite a significant quarter-on-quarter fall in total operating income (-48.0 percent) as compared to a drop in total operating expenses (-15.5 percent), the net loss for the reviewed quarter was reduced to USD224.0 thousand, compared to the net loss incurred in the previous quarter (USD466.0 thousand). This is due largely to increase in gains on foreign exchange and securities by 292.5 percent to USD154.0 thousand and 143.9 percent to USD69.0 thousand, respectively.

Capital

The international banking industry remained well capitalised. The capital adequacy ratio is positioned at 90.5 percent compared to 89.6 percent in previous quarter. The quarterly movement is influenced mostly by large decline in total risk-weighted-assets (-5.7%) compared to the decline in capital base (-4.8%).

Figure 34: Offshore Banking Industry – Capital
(Millions of USD & Percent; Quarterly Data)

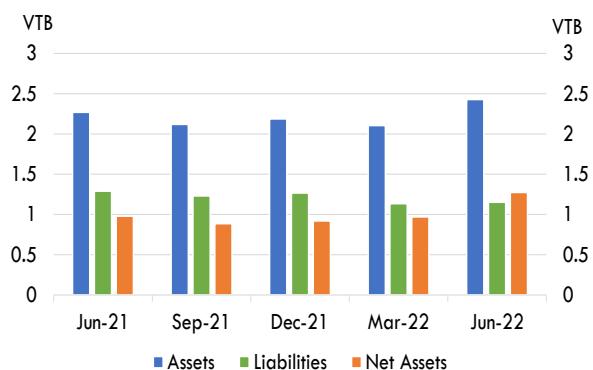

Capital base is comprised mostly of tier 1 capital (99.6 percent). Tier 1 capital showed a decrease quarter-on-quarter by 2.7 percent to USD21.7 million, attributed mostly to decrease in paid-up capital by 2.3 percent to USD29.1 million. On the other hand, tier 2 capital fell over the quarter by 56.7 percent to USD387.0 thousand as unaudited profits plummeted by 53.6 percent to USD441.0 thousand.

3.5 INSURANCE SECTOR DEVELOPMENTS

Domestic Insurers

Figure 35: Financial Position
(Billions of Vatu, Quarterly Data)

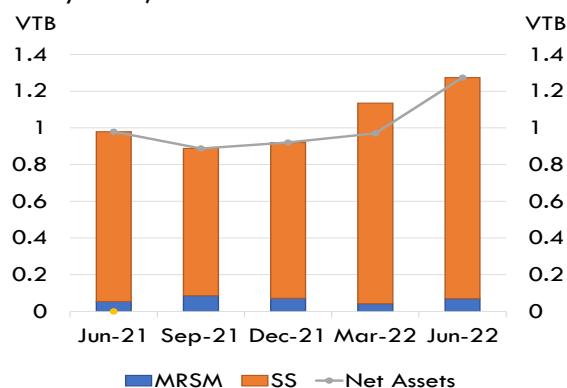

Total admissible assets increased by 15 percent in June, to VT2.4 billion (VT2.09 billion: Mar-22). The rise reflected an increase in Cash at bank/deposits by 16 percent to VT1.98 billion (VT1.7 billion: Mar-22). Premium receivable increased by 17 percent to VT267 million (VT227 million: Mar-22). Amounts due from reinsurers recorded a slight increase of 1.3 percent to VT170 million (VT167 million: Mar-22).

Insurance Liability for the period under review recorded an increase of 19 percent to VT1.1 billion (VT970 million: Mar-22). This reflects increase in other liability components as follows – payables and others recorded a significant increase of 1,119 percent to

VT142 million (VT13 million: Mar-13). Liabilities to related parties including intercompany loans increased by 14 percent to VT124 million (VT109 million: Mar-22). Catastrophe retention increased by 3 percent to VT34 million (VT33 million: Mar-22). Incurred but not reported (IBNR) declined by 60 percent to VT61.7 million (VT109 million: Mar-22).

In comparison to the same quarter of 2021, total liabilities declined by 10 percent (VT1.2 billion: June-21). Unexpired risks for the reporting quarter is the main component under liability at 35 percent.

Figure 36: Margin of Solvency (Billions of Vatu, Quarterly Data)

MRSM – Minimum required solvency margin
SS – Solvency surplus

The total domestic solvency position increased by 10 percent to VT1.2 billion (VT1.1 billion: Mar-22). Total solvency margin continued to be maintained at satisfactory level. Minimum solvency margin quarter-on-quarter increased by 65 percent to VT69 million (VT41 million: Mar-22). This reflects an increase in Net Earned Premium (NEP) from which MRSM is calculated.

The solvency surplus position (after deduction of the minimum required solvency margin) increased by 10 percent to VT1.2 billion (VT1.07 billion: Mar-22). In comparison to the same quarter of 2021, total solvency position showed an increase of 30 percent (VT925 million: June-21).

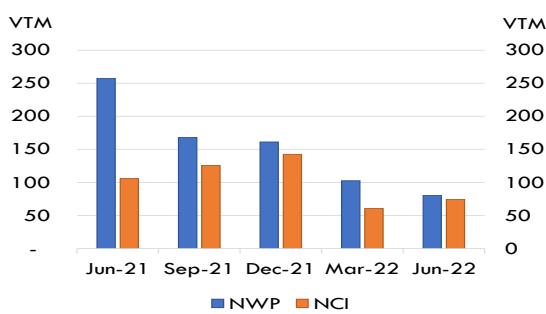

Domestic Industry Performance

Gross Premium (GP)

Total Premium for the period under review increased by 5 percent to VT378 million (VT359 million: Mar-22). Net Written Premium (NWP) increased by 118 percent to VT224 million (VT VT102 million: Mar-22). The significant increase in NWP indicated reinsurance costs and a larger payment for claims this quarter.

Reinsurance payment declined by 39 percent to VT154 million (VT257 million: Mar-22).

Figure 37: Net Written Premium and Net Claims Incurred.
(Millions of Vatu, Quarterly Data)

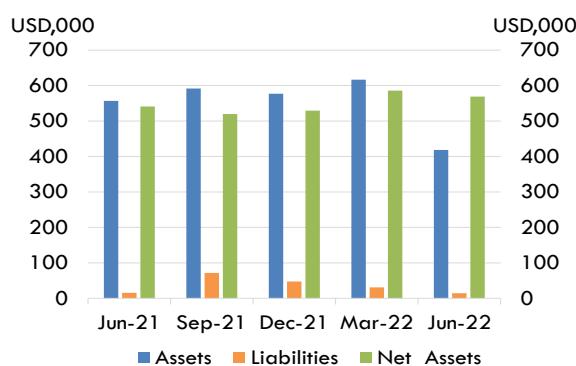

Claims

Gross Claims Incurred (GCI) increased by 12 percent to VT80 million (VT71 million: Mar-22). Gross claims comprised all historical and recent claims, provisioning and loss from reinsurance costs. The increase in gross claims reflects a larger reported number of claims and historical claims being settled. It also includes adjustments to claims provisioning.

Net Claims incurred increased by 22 percent to VT74 million (VT60 million: Mar-22). This figure reflects the movement in paid claims during the reporting quarter.

International Insurers

Figure 38: Financial Position (Thousands of USD, Quarterly Data)

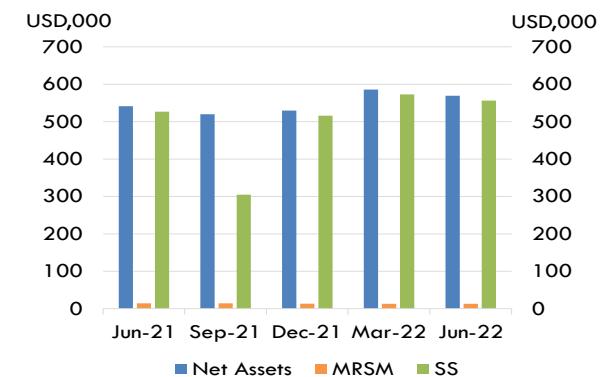

Total assets for the international market decreased by 32 percent to USD 418 thousand (USD 617 thousand: Mar-22). Cash on hand and bank deposits which comprised 100 percent of total assets also decreased by 32 percent to USD 418 thousand (USD 617 thousand: Mar-22).

Total liabilities in the international market decreased by 54 percent to USD 14 thousand (USD31 thousand: Mar-22). Unexpired Risks which comprises 87 percent of total liability, decreased by 57 percent, to USD12.4 thousand (USD 29.2 thousand: Mar 22).

In comparison to the same quarter of the previous year, total assets decreased by 25 percent (USD556 thousand: June-21), total liabilities declined by 9 percent (USD15.6 thousand: June-21) and net assets increased by 5 percent (USD541 thousand: June-21).

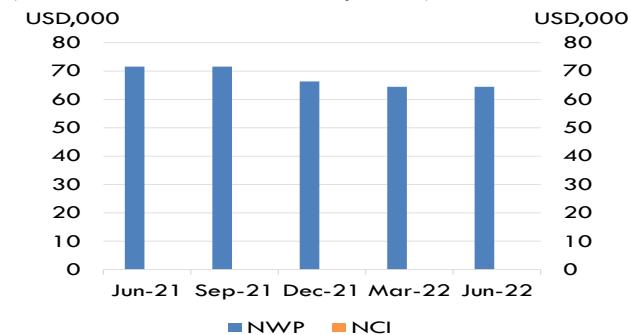

Figure 39: Margin of Solvency
(Thousands of USD, Quarterly Data)

MRSMS – Minimum required solvency margin
SS – Solvency surplus

Solvency position decreased by 3 percent to USD569 thousand (USD585 thousand: Mar-22). Minimum Required Solvency remained constant at USD12.9 thousand (USD12.9 thousand: Mar-22). Solvency surplus decreased by 3 percent to USD556 thousand (USD572 thousand: Mar-22).

Figure 40: Business Performance
(Thousands of USD, Quarterly Data)

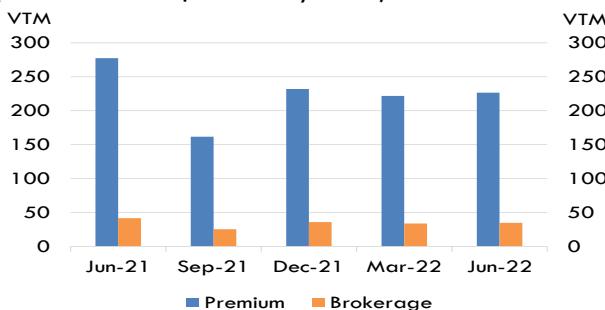

NWP – Net Written Premium NCI – Net Claims Incurred

Net Written Premium remained constant over the quarter at USD64.4 thousand (USD66.4 thousand: Mar-22). No Net Claims incurred were reported in this quarter. Compared to the same quarter of the previous year, Net Written Premium declined by 10 percent.

Insurance Brokers Overview.

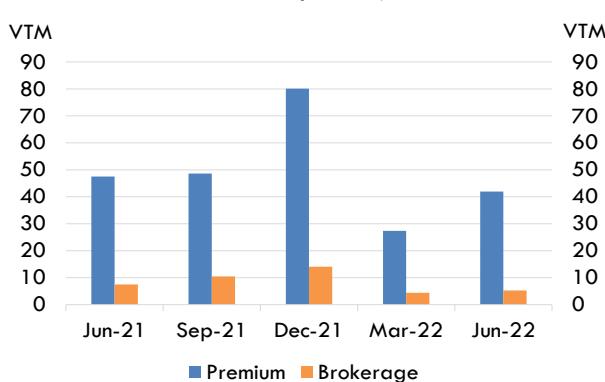

Figure 41: Domestic Broker Business
(Millions of Vatu, Quarterly Data)

The total premiums transacted for the domestic market through brokers as at end of June increased by 2 percent to VT226 million (VT221 million: Mar-22). The increase is attributed to the increase in the number of renewals & new business with local insurers during this period. The total brokerage commission also increased by 3 percent to VT34.7 million (VT33.8 million: Mar-22).

In comparison to the same quarter of 2021, premiums decreased by 18 percent (VT277 million: June-21). Brokerage commission decreased by 17 percent (VT42 million: June-21).

Figure 42: Offshore Broker Business
(Millions of Vatu, Quarterly Data)

The total premiums remitted offshore through brokers increased by 53 percent to VT42 million (VT27 million: Mar-22). The increase was due to a decrease in the number of renewals and new business from the following classes: Aviation, Directors & Officers, Commercial Pack, Marine Cargo and Life Insurance. The total brokerage commission also increased by 74 percent to VT 5.2 million (VT 4.3 million: Mar-22).

In comparison to the same quarter of 2021, total premium decreased by 12 percent (VT47 million: June-

21), indicating a decline in offshore business over the year. Brokerage decreased by 29 percent (VT 7.4 million: June-21).

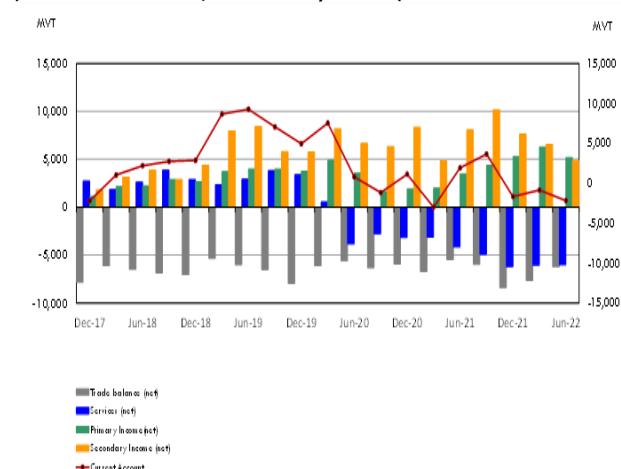

4 EXTERNAL SECTOR DEVELOPMENTS

4.1 BALANCE OF PAYMENTS

Current Account Balance

Vanuatu's negative current account balance (CAB) contracted further by 154.3 percent over the June quarter of 2022. This was mainly due to reductions in the positive income¹⁰ balances which outweighed improvements in the trade¹¹ balances. The overall trade balance improved by 10.7 percent as growth in exports outweighed increases in imports. The income balances deteriorated by 21.8 percent driven by reductions in overall outward transfer payments. The overall financial account balance deteriorated by 270.7 percent as the decline in overall foreign liabilities outweighed the reduction in overall foreign assets. Consequently, official foreign reserves grew by 0.1 percent over the June quarter, reaching VT 71,773 million, equivalent to USD\$622 million. The current level of foreign reserves is sufficient to cover up to 10 month of total imports.

Figure 43: Vanuatu's Current Account Balance
(Millions of Vatu, Quarterly Data)

Source: RBV

Trade in Goods

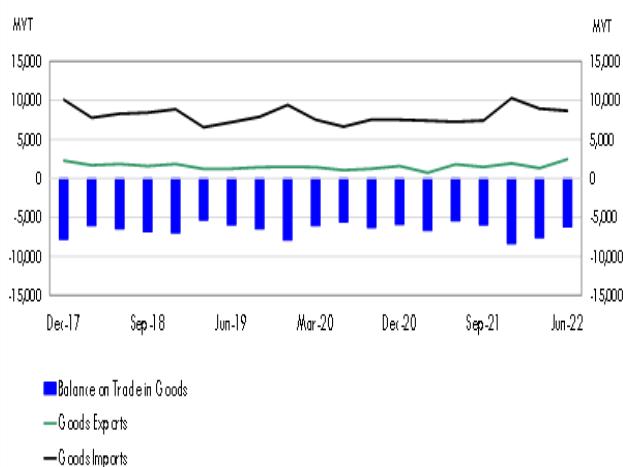

Vanuatu's trade in goods balance improved by 18.6 percent over the quarter, reflecting a reduction in import payments, offsetting increases in export receipts. Exports of goods increased by 86.9 percent as both domestic production showed improvements along with increased demand from abroad.

¹⁰ Primary income and secondary income

¹¹ Trade in goods and services

Accordingly, the main drivers of the significant increase were exports of kava (142.2 percent), copra (71.7 percent) and beef (69.7 percent). Total imported goods declined by 3 percent, reflecting reductions in food and live animals (-7.9 percent), crude minerals (-31.1 percent), animal, vegetable oil and fats (-24.5 percent), and basic manufactures (-25.3 percent). On the other hand, mineral fuels increased significantly by 80.6 percent reflecting higher international fuel prices.

Figure 44: Trade in Goods
(Millions of Vatu, Quarterly Data)

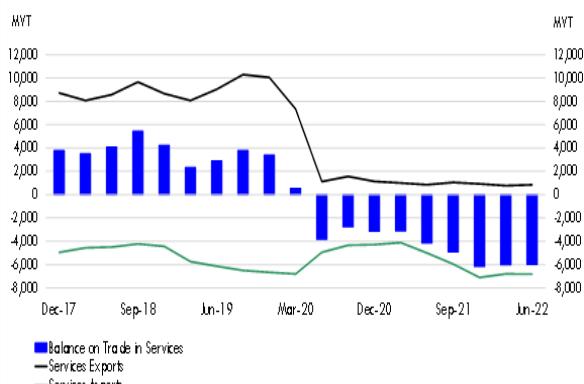

Sources: Vanuatu Bureau of Statistics (VBS) and RBV

Services Account

The net balance on the services account improved by 0.7 percent over the June quarter but deteriorated by 44.1 percent over the same quarter in 2021. Services exports improved by 8.5 percent mainly driven by related transport charges receipts. Services payments made abroad also increased by 0.4 percent led by an increase in postal and courier services (+3.8%), telecommunications, computer and information services (+33.2%). Travel debit declined by 7.7 percent reflecting the current stock of seasonal workers abroad.

Figure 45: Trade in Services payments
(Millions of Vatu, Quarterly Data)

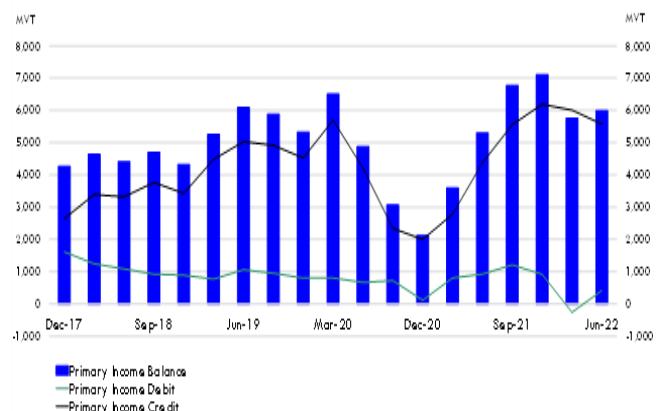

Source: RBV

Primary Income Account

The primary income balance contracted by 17.7 percent over the June quarter but improved by 49.5 percent year-on-year. Over the June quarter, the economic transactions depicted a 7.3 percent decrease in the primary income credit, in particular compensation of employees (-7.4%). The reduction was attributed to a 24 percent decline in the current stock of seasonal workers abroad. Investment income receipts rose by 5.3 percent; as attributed to a 57.7 percent increase in interest earned from other investments abroad. Conversely, primary income debit increased over the June quarter, mainly driven by overall investment income paid to abroad.

Figure 46: Primary Income Account
(Millions of Vatu, Quarterly data)

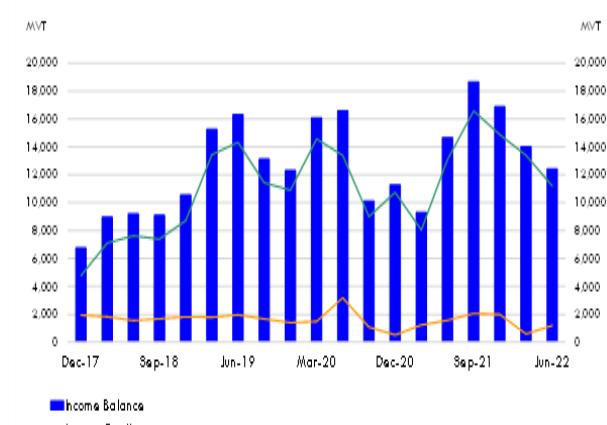

Source: RBV

Secondary Income Account

Over the June quarter, the secondary income net balance decreased by 25.6 percent. This was due to reductions in the overall secondary income transfer receipts which outweighed slight reductions in overall secondary income transfer payments abroad. Overall, the contraction in total income receipts reflected reductions of 23.6 percent and 12.7 percent, in the government and other sectors transfer receipts from abroad, respectively. Similarly, total income credit decline by 14.3 percent and 35.3 percent relative to the March quarter and the same quarter of 2021, correspondingly.

Outward transfers decreased by 8.1 percent over the June quarter. The reductions were mainly due to a 23 percent decline in personal and current transfer classified under the deposit taking corporations and other sectors.

Figure 47: Primary and Secondary Income Account
(Millions of Vatu, Quarterly data)

Source: RBV

Capital Account

Relative to an increase of 7.7 percent recorded over the March quarter, Vanuatu's capital account balance contracted by 44.5 percent over the June quarter and 3.1 percent year on year. External funds for the period were mainly for ongoing infrastructure projects (inclusive of road infrastructure projects) and other funds in support of the Government's priority sectors.

Financial account

The financial account declined over the June quarter due to reductions in financial assets and a 15.3 percent increase on financial liabilities. The reduction in financial assets was mainly driven by reduction in the reserve assets account. In terms of financial liabilities, the reduction was attributed to a 99 percent decline in direct investment, respectively.

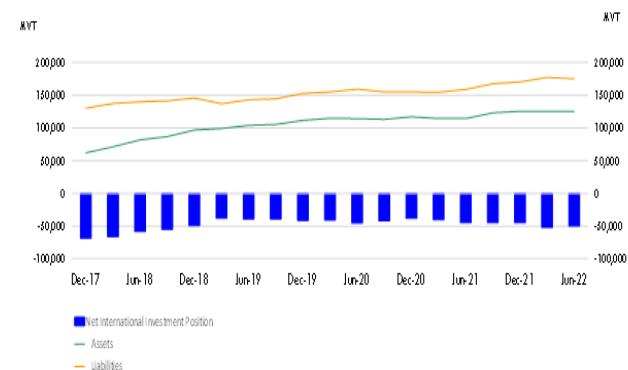

Official Reserves

Net foreign reserves grew by 0.11 percent to VT 71,773 million (\$622USD) over the June quarter from VT 71,695 million (\$642USD) recorded in the previous quarter. The equivalent US dollar figures recorded a decrease in monetary term in June compared to the March quarter, reflecting a 3.4 percent increase in the average USD exchange rate. The level of foreign reserves is sufficient to cover approximately 10 months of imports of goods and services.

4.2 VANUATU'S INTERNATIONAL INVESTMENT POSITION (IIP)

Vanuatu's IIP improved over the June quarter reaching a negative VT 49.6 billion. The improvement stemmed from a 1.2 percent reduction in overall liabilities in addition to a 0.3 percent increase in overall assets. Vanuatu continued to maintain a net borrowing position as recorded external liabilities (VT175.1 billion) exceeded external assets (VT 125.5 billion).

Figure 48: Vanuatu's International Investment Position
(Millions of Vatu, Quarterly Data)

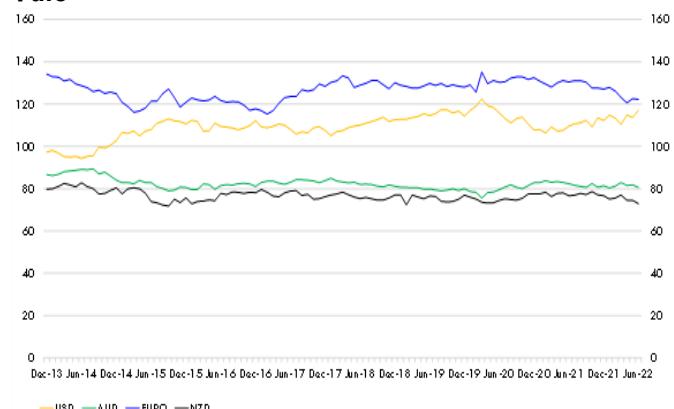

Source: RBV

4.3 EXCHANGE RATE DEVELOPMENTS

Movements of the Vanuatu Vatu currency vis-à-vis the major currencies reflected developments in the economic and financial conditions of Vanuatu and its major trading partners. The Vatu appreciated against the AUD by 2.82, NZD by 5.36, and EURO by 0.72 percent while it depreciated against the USD by 6.11 percent and CNY by 0.52 percent over the reviewed quarter.

CHRONOLOGY OF MAJOR EVENTS

| No. | BRIEF DESCRIPTION OF MAJOR EVENTS | EFFECTIVE DATE |
|-----|---|----------------|
| 1. | The Vanuatu National Provident Fund (VNPF) has so far paid out almost VT100 million in COVID-19 Hardship Loans to close to 3,000 members. A total of VT300 million was set aside for the Hardship Loan by the VNPF. Members can withdraw up to VT50,000 from their investment accounts, or in a worst-case scenario, from their retirement accounts under certain conditions. (Vanuatu Daily Post) | 5 April 2022 |
| 2. | The Asian Development Bank (ADB) and the Government of Vanuatu signed grant agreements on 8 April 2022, totaling \$2.9 million to improve resilience in the Greater Port Vila area through capacity building, institutional strengthening, and the construction of two multipurpose emergency shelters. Vanuatu's Minister of Finance and Economic management, Johnny Koanapo, and the ADB Director General (DG) for the Pacific, Leah Gutierrez, signed the grant agreements at a virtual event for the additional financing for the Greater Port Vila Urban Resilience Project. The additional financing from the Global Environment Facility (GEF) and ADB's Ireland Trust Fund will help improve urban service delivery and allow the ongoing project to be expanded to fund the construction of a third gender-responsive, multipurpose emergency shelter in the Freshwota-Tassirki Ward in Port Vila. This will serve as a market building and will have capacity to house 153 people during emergencies; the piloting of nature-based coastal protection, including the planting of mangroves; and climate change modelling to guide the development and updating of key urban planning documents. The additional financing comes from GEF (\$2.29 million) and the Ireland Trust Fund for Building Climate Change and Disaster Resilience in Small Island Developing States (\$700,000). (Vanuatu Daily Post) | 12 April 2022 |
| 3. | The Vanuatu Chamber of Commerce and Industry (VCCI) processed over 1,200 applications from Efate and Santo for the Small Business Grant (SBG) under the Second Policy Stimulus – the second fiscal support to businesses affected by COVID-19. Further processing of applications will be extended to Malekula. Applications are being accepted until September 30. The SBG was designed to support monthly cash flow until the end of 2021 for all businesses with an annual turnover of less than VT4 million. The government will issue a grant of VT15,000 per month for a period of eight months (covering May to December) to small businesses eligible for the SBG. This is a total of VT120,000 per business. (Vanuatu Daily Post) | 12 April 2022 |

| No. | BRIEF DESCRIPTION OF MAJOR EVENTS | EFFECTIVE DATE |
|-----|---|----------------------|
| 5. | <p>The Utilities Regulatory Authority of Vanuatu has informed UNELCO's electricity customers that since the last electricity tariff billing of March 2022 at 57.63 VT/kWh, the electricity prices was adjusted upwards by 4.25% or +2.45VT/kWh. This increase in adjustment was largely due to an increase in the monthly average imported diesel fuel price/litre by 10.71% in mid-March 2022 from February 2022. The electricity tariff per kWh for April 2022 increased by 4.25% to 60.08 VT/kWh. Current global fuel prices are expected to increase due to the ongoing conflict between Russia and Ukraine impacting the world fuel market and therefore, customers should expect gradual increase in electricity price as a result in the coming months. (Utilities Regulatory Authority of Vanuatu)</p> | 25 April 2022 |
| 6. | <p>As of 30 April 2022, Vanuatu's first wave of COVID-19 community transmission recorded 7,507 total cases with 13 lives lost related to the COVID-19 pandemic (since 1 January 2022), up from 3,710 total cases and 2 deaths recorded at the end of March 2022. 5,129 cases were recorded in SHEFA province, 2,039 cases in SANMA province, 116 cases in TORBA province, 199 cases in PENAMA province and 24 cases in TAFEIA, while MALAMPA province recorded no case. Active cases declined to 726 cases from 2,163 cases at end of March while recoveries increased to 6,768 cases from 1,547 cases. (Vanuatu Ministry of Health)</p> | 30 April 2022 |
| 7. | <p>The Pacific Tourism Organization (SPTO) and Pacific Agreement on Closer Economic Relations (PACER) plus the Pacer Plus Implementation Unit (PPIU) have signed a Memorandum of Understanding (MoU) to foster a collaborative partnership that will benefit both organizations and their stakeholders. With the extensive knowledge and experience, centered in trade and investment, and aligning itself to the Sustainable Development Goals (SDG), PPIU supports Pacific Island countries to implement activities under the PACER Plus Agreement, stimulating economic growth and sustainable development in the Pacific. Both regional organizations SPTO and PACER Plus will benefit from Knowledge sharing and best partnership experiences Under the MoU. The partnership will respond to issues that support the growth of the tourism industry in the Pacific. (Vanuatu Daily Post)</p> | 6 May 2022 |
| 8. | <p>A labor coalition has been established to address the shortage of skilled workforce in Vanuatu's tourism and hospitality sector. To address the labor shortage in the sector, the labor coalition has been formed between the Ministry of Tourism Trade Commerce and Ni-Vanuatu Business (MTTCNVB) and the Ministry of Internal Affairs (MOIA) through the collaboration of the Department of Tourism, Department of Labor, and VTO to work together and facilitate the opportunity for registration and training of Ni- Vanuatu into the tourism and hospitality sector for preparation towards border reopening. (Vanuatu Daily Post)</p> | 10 May 2022 |

| No. | BRIEF DESCRIPTION OF MAJOR EVENTS | EFFECTIVE DATE |
|-----|---|----------------|
| 9. | <p>The Minister of Agriculture, Willie Daniel Kalo, signed an order sanctioning the harvest and export of sandalwood last week, indicating that the sandalwood harvest season has now opened. The harvesting and exporting of sandalwood logs are now underway. The order only permits 90 tons of sandalwood logs as the harvesting quota. The main market of Vanuatu's main markets are Australia and China. There are four grades, 1 is VT4000 per Kilogram, and Grade 2 – VT3000, grade 3 VT2000, and grade 4 is VT1000 per Kg. The harvesting and exporting started in April and end in December. (Vanuatu Daily Post)</p> | 17 May 2022 |
| 10. | <p>The European Council has partially suspended Vanuatu's visa waiver agreement to the 27 European countries in the Schengen area, it stated in a press release dated 3 March 2022. According to the EU online press statement, any passports sold from May 25, 2015 will now have to apply for a visa when entering any European country, even for only a few days. The reasons for the suspension, as stated in the press release, were as follows:</p> <ol style="list-style-type: none"> 1. The extremely low rejection rate, which raises doubts as to the reliability of the security and due diligence screening 2. The absence of physical presence or residence requirements, short processing periods and lack of information exchange with applicants' countries of origin or residence 3. The granting of citizenship to applicants listed in Interpol databases 4. The nationalities of origin of successful applicants, which include several countries whose nationals require a visa to enter the EU. <p>The visa waiver agreement between the EU and Vanuatu started in 2015. (Vanuatu Daily Post)</p> | 19 May 2022 |
| 11. | <p>France signed two financing agreements for over VT471 million (€3.8 M) with the National University of Vanuatu (NUV) on Thursday, 19 May 2022. This operation, financed by a grant from the French Development Agency (FDA) represents a major strategic issue in Vanuatu's education and digital development policy. The NUV is the country's first national university. Through this funding from the FDA, France is supporting the Government of Vanuatu in the structuring of its national multilingual University by supporting the development of its infrastructure, training offer, its governance, its human resources, and its technical, digital and pedagogical means. This approach is in line with Objective 2.4 of Vanuatu's National Sustainable Development Plan 2016-2030 (NSDP), which aims to increase higher education opportunities, including technical and vocational training and skills through a law establishing the National University of Vanuatu (Act No. 34 of 2019 published on 24 January 2020). (Vanuatu Daily Post)</p> | 20 May 2022 |

| No. | BREIF DESCRIPTION OF MAJOR EVENTS | EFFECTIVE DATE |
|-----|--|--------------------|
| 12. | The hospitality businesses in Vanuatu are at different stages of addressing staffing issues in preparation for the border reopening. Staff shortages have risen. Because of the impact of seasonal work that has taken skilled workers away. With the border reopening now a few months away, there have been concerns as to whether the industry can be adequately staffed by July 1 2022 when it re-opens. The Holiday Inn Resort Vanuatu has had several staff leave for seasonal work although some have returned to the resort. The Resort noted that since March 2020 it experienced a decrease in its staff by 50%, the majority of which has been through natural attrition, stated the Director of Sales and Marketing at the Holiday Inn. The resort is looking to employing over 170 people once Vanuatu's international border reopens. The Ramada Resort is also looking to employ in areas of the required skill. (Vanuatu Daily Post) | 24 May 2022 |
| 13. | The domestic price for diesel is expected to increase from VT183 per litre to VT217.12 per litre from May 26, 2022, an increase of VT34.12 per litre in two months. Diesel price increased from VT160 per litre to VT183 per litre on March 13, 2022. The wholesale price of diesel increased to VT129 per litre and pump prices at VT141 per litre on April last year. The price of petrol at pumps was recently increased from VT173 per litre to VT195 per litre, an increase of VT22 per litre. Recent rises in diesel and petrol price hikes are being driven by the Russia-Ukraine conflict and COVID-19 pandemic. (Vanuatu Daily Post) | 26 May 2022 |
| 14. | To date, 82% of the adult eligible population in Vanuatu has received at least one dose of the COVID-19 vaccine while 75% are fully vaccinated (at least two doses). 75% to 83% of the eligible population in the provinces of SHEFA, SANMA, TORBA, MALAMPA and PENAMA have been fully vaccinated. Coverage is still lagging behind in the Tafea Province, with over 60% of its eligible population still to be fully vaccinated. 52% of Tafea's eligible population have received at least one dose. 23, 829 of the Tafea??? Population are eligible for the COVID-19 vaccine. A total of 244, 330 doses of the COVID-19 vaccines have been administered so far, since the vaccination program rollout began in June 2021. (Vanuatu Daily Post) | 26 May 2022 |
| 15. | Ratifying the PACER PLUS Agreement has made Vanuatu the 10th country to endorse the document. The other countries that ratified the agreement include Australia, New Zealand, Cook Island, Kiribati, Samoa, Solomon Islands, Tonga, and Tuvalu. PACER PLUS is a regional trade agreement that aims to promote regional economic integration through trade, avoid barriers to trade, ensure that trade is liberalized, and promote integration between the economies of its parties. The Minister of Foreign Affairs and External Trade affirmed that the arrangement will benefit Vanuatu through the labor mobility program by continuing to support the supply of workers and improve their skills. Opposition leaders have raised concerns about the possible negative effects of the PACER PLUS agreement. (Vanuatu Daily Post) | 30 May 2022 |

|-----|---|------------------------------|
| 16. | UNELCO and Vate electrics will be partnering with the Vanuatu National Provident Fund to provide electricity on Tanna and Malekula. UNELCO will be responsible for the component of electricity generation, while Vate electrics will have the responsibility of distributing electricity. VNPF General Manager Parmod Achary revealed this, following the signing of the Tanna/ Malekula electricity concession agreement in May 2022. As the new electricity concessionaire on Tanna and Malekula, VNPF will now take over the operation costs including fuel, labor and Maintenance. (Vanuatu Daily Post) | 4 June 2022 |
| 17. | The Melanesian Spearhead Group Secretariat virtually signed the Host agreement for Melanesia Trade Advisers with Pacific Islands Forum Secretariat (PIFS) yesterday. This has been lauded as a step towards post pandemic economic recovery. The European Union delegation (EUD) for the Pacific and the Regional Authorizing officer (RAO) held a ceremonial event for the signing of the Financing Agreement (FA) for the 37 million Euro PRISE program in February 2020. The PIFS is the lead implementing agency for strengthen Pacific Intra-Regional and International Trade (SPIRIT) with a budget of EUR 5.75 million. (Vanuatu Daily Post) | 7 June 2022 |
| 18. | The state of COVID-19 Public Health Emergency (PHE) which was declared in February 2022 ended on June 16 2022, as all provinces moved to recovery level 1. Declared under the Public Health Act, the Public Health Emergency allowed for the Ministry of Health (MOH) to assume responsibility for preparedness and response to a public health event and to issue emergency orders to manage matters during the pandemic. When declaring the PHE over, the Minister of Health, Bruno Leingkone, said this means that people can now move around freely and schools can continue normal operations. (Vanuatu Daily Post) | 17 June 2022 |
| 19. | The merger of Australia's seasonal worker program (SWP) and the Pacific Labour scheme (PLS) under a single scheme, Pacific Australia Labour Mobility Scheme (PLS) under a single scheme, Pacific Australia Labour Mobility (PALM) scheme, is expected to be effective early 2023. Australian High Commissioner to Vanuatu, Heide Bootle, said merging the two schemes will provide stronger outcomes and protection for workers. Under the PALM scheme, workers from Vanuatu and other Pacific countries can apply to bring their families with them to Australia for one to four years, under sponsorship by Australian employers. Commissioner Bootle emphasized that a strong partnership is the key to ensuring that measures under the consolidated scheme protect workers. (Vanuatu Daily Post) | 24 June 2022 |
| 20. | The World Bank's Board of Executive Directors approved US (\$) 10 million (VT1.18 billion) to support Vanuatu's ongoing efforts to strengthen climate change adaptation, disaster risk reduction, health management and debt transparency. This financing reinforces the World Bank's commitment to increasing resilience in Vanuatu through Climate Change Resilient Transport Project. (Vanuatu Daily Post) | 24 June 2022 |
